WADA statement on substance AOD-9604

April 22, 2013

Following a number of inquiries regarding the substance AOD-9604 available on the Internet 'black market' and possibly elsewhere, WADA has issued the following statement:

AOD-9604 is a substance still under pre-clinical and clinical development and has not been approved for therapeutic use by any government health authority in the world.

Therefore, under the 2013 Prohibited Substances and Methods List, the substance falls into the S.0 category which states:

"S0. NON-APPROVED SUBSTANCES

Any pharmacological substance which is not addressed by any of the subsequent sections of the List and with no current approval by any governmental regulatory health authority for human therapeutic use (e.g drugs under pre-clinical or clinical development or discontinued, designer drugs, substances approved only for veterinary use) is prohibited at all times."

For more advice and information regarding medication or supplements, athletes are advised to contact their national anti-doping organization or international federation.
