

World Anti-Doping Code

International Standard for Data Protection

International Standard for the Data Protection ~~of Privacy~~ and Personal Information

The ~~World Anti-Doping Code~~ International Standard for the Data Protection ~~of Privacy and Personal Information~~ is a mandatory *International Standard* developed as part of the World Anti-Doping Program. It was developed in consultation with *Signatories*, public authorities, Athletes, and other relevant stakeholders.

The *International Standard* for the Protection of Privacy and Personal Information (ISPPPI) was first adopted in 2009 and came into effect in June 2009. It was subsequently amended ~~two~~three times, the first ~~time~~ effective January 2015 ~~and~~, the second time effective June 2018. ~~A revised version to come into force on 1, the third time effective~~ January 2021 ~~was approved by, and the WADA Executive Committee at the World Conference on Doping in Sport in Katowice on 7 November 2019. Following a limited supplementary consultation period, a further revised version was approved by the WADA Executive Committee on 15 September 2020 and is effective as of 1 January 2021. This version incorporates minor, clarifying revisions to Annex A, which were approved by the WADA Executive Committee on 24 November 2021, and has been~~ fourth time effective 24 November 2024. With this fifth revised version, the ISPPPI has been renamed the International Standard for Data Protection (ISDP) and is effective since this date as of 1 January 2027.

PART ONE: INTRODUCTION, CODE PROVISIONS, AND INTERNATIONAL STANDARD PROVISIONS ~~AND DEFINITIONS~~

1.0 Introduction and Scope

The purpose of the *International Standard* for ~~the Data~~ Protection ~~of Privacy and Personal Information~~ is to ensure that *Anti-Doping Organizations* apply appropriate, sufficient and effective privacy protections to the Personal Information they Process when conducting anti-doping programs, in recognition of the fact ~~that Personal Information gathered in the anti-doping context~~ *Anti-Doping Activities* can impinge upon and implicate the privacy rights of Persons individuals involved in and associated with organized sport, including Athletes and Athlete Support Personnel. The *International Standard* for Data Protection may also apply to other stakeholders, such as Laboratories, where specified in the Code, International Standards, Technical Documents or guidelines.

The *Code*, in particular, requires *Athletes* to furnish a significant amount of Personal Information to *Anti-Doping Organizations*. As a result, it is essential that *Anti-Doping Organizations* and other relevant stakeholders appropriately protect the Personal Information that they Process both to meet legal standards and to ensure the continued confidence and trust of those involved in organized sport.

The *Code* recognizes and affirms the importance of ensuring that the privacy rights of Persons individuals subject to anti-doping programs based on the *Code* are fully respected. In support of this commitment, this *International Standard* sets forth a minimum, common set of rules to which *Anti-Doping Organizations* ~~must~~ and other relevant stakeholders shall conform to when Processing Personal Information pursuant to the *Code*. In some cases, *Anti-Doping Organizations* or other stakeholders may be required by applicable laws to apply rules or standards that exceed those set forth in this *International Standard*.

A WADA expert reference group reviewed, discussed and prepared this document, and specifically took into account the Organization for Economic Cooperation and Development's (OECD) 1980 Guidelines on the Protection of Privacy and Transborder Flows of Personal Data; the Council of Europe Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data (ETS. No. 108⁺); the APEC Privacy Framework; the Charter of Fundamental Rights of the European Union; ¹ EU Regulation 2016/679 on the protection of natural persons with regard to the processing of personal data (General Data Protection Regulation); ² and other international and regional data privacy rules, standards and case law, such as the judgement of the European Court of Human Rights of 18 January 2018 (FNASS and others vs. France).

~~Terms used in this *International Standard* that are defined terms from the *Code* are italicized. Terms that are defined in this or another *International Standard* are underlined.~~

2.0 Code Provisions

The following ~~articles~~ Articles in the *Code* are directly relevant to the *International Standard* for ~~the Data~~ Protection ~~of Privacy and Personal Information~~; they can be obtained by referring to the *Code* itself:

– Code Article 14 Confidentiality and Reporting

3.0 Definitions and Interpretation

3.1 Defined Terms from the Code that are used in the International Standard for the Protection of Privacy and Personal Information

ADAMS: The Anti-Doping Administration and Management System is a Web-based database management tool for data entry, storage, sharing, and reporting designed to assist stakeholders and WADA in their anti-doping operations in conjunction with data protection legislation.

Anti-Doping Activities: Anti-doping Education and information, test distribution planning, maintenance of a Registered Testing Pool, managing Athlete Biological Passports, conducting Testing, organizing analysis of Samples, gathering of intelligence and conduct of investigations, processing of TUE applications, Results Management, hearings, monitoring and enforcing compliance with any Consequences imposed, and all other activities related to anti-doping to be carried out by or on behalf of an Anti-Doping Organization, as set out in the Code and/or the International Standards.

Anti-Doping Organization: WADA or a Signatory that is responsible for adopting rules for initiating, implementing or enforcing any part of the Doping Control process. This includes, for example, the International Olympic Committee, the International Paralympic Committee, other Major Event Organizations that conduct Testing at their Events, International Federations, and National Anti-Doping Organizations.

Athlete: Any Person who competes in sport at the international level (as defined by each International Federation) or the national level (as defined by each National Anti-Doping Organization). An Anti-Doping Organization has discretion to apply anti-doping rules to an Athlete who is neither an International-Level Athlete nor a National-Level Athlete, and thus to bring them within the definition of "Athlete". In relation to Athletes who are neither International-Level nor National-Level Athletes, an Anti-Doping Organization may elect to: conduct limited Testing or no Testing at all; analyze Samples for less than the full menu of Prohibited Substances; require limited or no whereabouts information; or not require advance TUEs. However, if an Article 2.1, 2.3 or 2.5 anti-doping rule violation is committed by any Athlete over whom an Anti-Doping Organization has elected to exercise its authority to test and who competes below the international or national level, then the Consequences set forth in the Code must be applied. For purposes of Article 2.8 and Article 2.9 and for purposes of anti-doping information and Education, any Person who participates in sport under the authority of any Signatory, government, or other sports organization accepting the Code is an Athlete.

[Comment to Athlete: Individuals who participate in sport may fall in one of five categories: 1) International-Level Athlete, 2) National-Level Athlete, 3) individuals who are not International or National-Level Athletes but over whom the International Federation or National Anti-Doping Organization has chosen to exercise authority, 4) Recreational Athlete, and 5) individuals over whom no International Federation or National Anti-Doping Organization has, or has chosen to, exercise authority. All International and National Level Athletes are subject to the anti-doping rules of the Code, with the precise definitions of international and national level sport to be set forth in the anti-doping rules of the International Federations and National Anti-Doping Organizations.]

Athlete Support Personnel: Any coach, trainer, manager, agent, team staff, official,

medical, paramedical personnel, parent or any other *Person* working with, treating or assisting an *Athlete* participating in or preparing for sports competition.

Code: The World Anti-Doping Code.

Competition: A single race, match, game or singular sport contest. For example, a basketball game or the finals of the Olympic 100-meter race in athletics. For stage races and other sport contests where prizes are awarded on a daily or other interim basis the distinction between a *Competition* and an *Event* will be as provided in the rules of the applicable International Federation.

Consequences of Anti-Doping Rule Violations (“Consequences”): An *Athlete’s* or other *Person’s* violation of an anti-doping rule may result in one or more of the following: (a) *Disqualification* means the *Athlete’s* results in a particular *Competition* or *Event* are invalidated, with all resulting *Consequences* including forfeiture of any medals, points and prizes; (b) *Ineligibility* means the *Athlete* or other *Person* is barred on account of an anti-doping rule violation for a specified period of time from participating in any *Competition* or other activity or funding as provided in Article 10.14.1; (c) *Provisional Suspension* means the *Athlete* or other *Person* is barred temporarily from participating in any *Competition* or activity prior to the final decision at a hearing conducted under Article 8; (d) *Financial Consequences* means a financial sanction imposed for an anti-doping rule violation or to recover costs associated with an anti-doping rule violation; and (e) *Public Disclosure* means the dissemination or distribution of information to the general public or *Persons* beyond those *Persons* entitled to earlier notification in accordance with Article 14. Teams in *Team Sports* may also be subject to *Consequences* as provided in Article 11.

Delegated Third Parties: Any *Person* to which an *Anti-Doping Organization* delegates any aspect of *Doping Control* or anti-doping *Education* programs including, but not limited to, third parties or other *Anti-Doping Organizations* that conduct *Sample* collection or other *Doping Control* services or anti-doping *Educational* programs for the *Anti-Doping Organization*, or individuals serving as independent contractors who perform *Doping Control* services for the *Anti-Doping Organization* (e.g., non-employee *Doping Control* officers or chaperones).

Doping Control: All steps and processes from test distribution planning through to ultimate disposition of any appeal and the enforcement of *Consequences*, including all steps and processes in between, including but not limited to, *Testing*, investigations, whereabouts, *TUEs*, *Sample* collection and handling, laboratory analysis, *Results Management*, *hearings and appeals*, and investigations or proceedings relating to violations of Article 10.14 (Status During *Ineligibility* or *Provisional Suspension*).

Education: The process of learning to instill values and develop behaviors that foster and protect the spirit of sport, and to prevent intentional and unintentional doping.

International Standard: A standard adopted by WADA in support of the Code. Compliance with an *International Standard* (as opposed to another alternative standard, practice or procedure) shall be sufficient to conclude that the procedures addressed by the *International Standard* were performed properly. *International Standards* shall include any *Technical Documents* issued pursuant to the *International Standard*.

~~**Participant:** Any Athlete or Athlete Support Person.~~

~~**Person:** A natural Person or an organization or other entity.~~

~~**Prohibited Method:** Any method so described on the Prohibited List.~~

~~**Prohibited Substance:** Any substance, or class of substances, so described on the Prohibited List.~~

~~**Publicly Disclosed:** See Consequences of Anti-Doping Rule Violations above.~~

~~**Results Management:** The process encompassing the timeframe between notification as per Article 5 of the International Standard for Results Management, or in certain cases (e.g., Atypical Finding, Athlete Biological Passport, Whereabouts Failure), such pre-notification steps expressly provided for in Article 5 of the International Standard for Results Management, through the charge until the final resolution of the matter, including the end of the hearing process at first instance or on appeal (if an appeal was lodged).~~

~~**Sample or Specimen:** Any biological material collected for the purposes of Doping Control.~~

~~[Comment to Sample or Specimen: It has sometimes been claimed that the collection of blood Samples violates the tenets of certain religious or cultural groups. It has been determined that there is no basis for any such claim.]~~

~~**Signatories:** Those entities accepting the Code and agreeing to implement the Code, as provided in Article 23.~~

~~**Target Testing:** Selection of specific Athletes for Testing based on criteria set forth in the International Standard for Testing and Investigations.~~

~~**Testing:** The parts of the Doping Control process involving test distribution planning, Sample collection, Sample handling, and Sample transport to the laboratory.~~

~~**Therapeutic Use Exemption [TUE]:** A Therapeutic Use Exemption allows an Athlete with a medical condition to use a Prohibited Substance or Prohibited Method, but only if the conditions set out in Article 4.4 and the International Standard for Therapeutic Use Exemptions are met.~~

~~**WADA:** The World Anti-Doping Agency.~~

~~3.2 Defined Terms from the International Standard for Testing and Investigations~~

~~**Doping Control Coordinator:** An Anti-Doping Organization or a Delegated Third Party that coordinates any aspect of Doping Control on behalf of an Anti-Doping Organization. The Anti-Doping Organization always remains ultimately responsible under the Code for compliance with the requirements of the International Standard for Testing and Investigations, Therapeutic Use Exemptions, Protection of Privacy and Personal Information, and Results Management.~~

~~**Doping Control Officer (or DCO):** An official who has been trained and authorized by the Sample Collection Authority to carry out the responsibilities given to DCOs in the~~

~~International Standard for Testing and Investigations.~~

~~No Advance Notice Testing:~~ Sample collection that takes place with no advance warning to the Athlete and where the Athlete is continuously chaperoned from the moment of notification through Sample provision.

~~3.3 Defined Terms Specific to the International Standard for the Protection of Privacy and Personal Information~~

~~Personal Information:~~ Information, including without limitation Sensitive Personal Information, relating to an identified or identifiable Participant or other Person whose information is Processed solely in the context of an Anti-Doping Organization's Anti-Doping Activities.

~~[Comment to Personal Information: It is understood that Personal Information includes, but is not limited to, information relating to an Athlete's name, date of birth, contact details and sporting affiliations, whereabouts, designated TUEs (if any), anti-doping test results, and Results Management (including disciplinary hearings, appeals and sanctions). Personal Information also includes personal details and contact information relating to other Persons, such as medical professionals and other Persons working with, treating or assisting an Athlete in the context of Anti-Doping Activities. Such information remains Personal Information and is regulated by this International Standard for the entire duration of its Processing, irrespective of whether the relevant individual remains involved in organized sport.]~~

~~Processing~~ (and its cognates, ~~Process~~ and ~~Processed~~): Collecting, accessing, retaining, storing, disclosing, transferring, transmitting, amending, deleting or otherwise making use of Personal Information.

~~Security Breach:~~ A breach of security resulting in the loss, theft, damage or unauthorized and/or unlawful Processing of Personal Information whether in electronic or hard copy or other form, or interference with an information system, that compromises the privacy, security, confidentiality, availability or integrity of Personal Information.

~~Sensitive Personal Information:~~ Personal Information relating to a Participant's racial or ethnic origin, commission of offences (criminal or otherwise), health (including information derived from analyzing an Athlete's Samples or Specimens) and biometric and genetic information.

~~Third Party:~~ Any Person other than the Person to whom the relevant Personal Information relates, Anti-Doping Organizations, and Third Party Agents.

~~Third Party Agent:~~ Any Person that Processes Personal Information on behalf of, as delegated by, or as otherwise engaged by an Anti-Doping Organization in the context of the Anti-Doping Organization's own Anti-Doping Activities including, without limitation, a Delegated Third Party and any subcontractors.

~~3.4 Interpretation~~

3.0 Interpretation

~~3.4.1~~ The official text of the *International Standard* for the Data Protection of Privacy and Personal Information shall be published in English and French. In the event of any conflict between the English and French versions, the English version shall prevail.

~~3.4.2~~ Like the Code, the *International Standard* for ~~the~~Data Protection ~~of Privacy and Personal Information~~ has been drafted giving consideration to the principles of proportionality, human rights, and other applicable legal principles. It shall be interpreted and applied in that light.

~~3.4.3~~ The comments annotating various provisions of the *International Standard* for ~~the~~Data Protection ~~of Privacy and Personal Information~~ shall be used to guide its interpretation.

~~3.4.4~~ Unless otherwise specified, references to ~~Sections and~~ Articles or Annex are references to ~~Sections and~~ Articles of the Annex of the *International Standard* for Data Protection.

Terms used in this *International Standard* that are defined terms from the Code are italicized. Terms that are defined in this or another *International Standard* are underlined.

Defined terms from the Code and *International Standards* that are used in the *International Standard* for ~~the~~Data Protection ~~of Privacy and Personal Information~~ are found in Appendix 1.

~~3.4.5~~ The ~~Annexes~~Annex and Appendix to the *International Standard* for ~~the~~Data Protection ~~of Privacy and Personal Information~~ have the same mandatory status as the rest of the *International Standard*.

The following terms used in the *International Standard* for Data Protection shall be interpreted as indicated:

- “Shall” to indicate a mandatory requirement.
- “Should” to indicate a recommendation.

I.

PART TWO: STANDARDS FOR HANDLING PERSONAL INFORMATION

4.0 Processing Personal Information in Accordance with *International Standard* and Applicable Law

~~4.1~~ 4.1 This *International Standard* sets forth a minimum set of requirements applicable to the Processing of Personal Information by *Anti-Doping Organizations* ~~and~~ their Third-Party Agents, and other stakeholders (if applicable) in the context of their *Anti-Doping Activities*. All *Anti-Doping Organizations* ~~must~~shall comply with this *International Standard*, even when its requirements exceed those arising under the *Anti-Doping Organization's* applicable data protection and/or privacy laws, reflecting the vital need to protect the privacy of ~~Participants and other Persons~~individuals involved in and associated with anti-doping in sport.

~~[Comment to 4.1: Anti-Doping Organizations, along with any Third-Party Agents, minimally must comply with the requirements set forth in this International Standard, as applicable, provided that such compliance does not breach other applicable laws. For greater certainty, in cases where compliance with the requirements of this International Standard may cause an Anti-Doping Organization to breach other applicable laws, those laws shall prevail. This result will not lead to a determination of non-compliance with the World Anti-Doping Code to the strict extent of the conflict, however, Anti-Doping Organizations should communicate any such conflicts to WADA and other relevant Anti-Doping Organizations as soon as reasonably possible.]~~

~~4.2~~ 4.2 *Anti-Doping Organizations* may be subject to data protection and privacy laws, as well as other laws governing the Processing of Personal Information, that impose requirements that exceed those arising under this *International Standard*. In such circumstances, *Anti-Doping Organizations* ~~must~~shall ensure that their Processing of Personal Information complies with all such ~~data protection and privacy~~applicable laws.

~~[Comment to Article 4.2: Anti-Doping Organizations in certain countries may be subject to laws that govern their Processing of Personal Information relating to natural Persons in addition to Participants, such as their own employees or staff employed by other Anti-Doping Organizations, or impose additional restrictions going beyond this International Standard such as general data protection and privacy laws, laws governing anti-doping and sport that contain requirements related to the Processing of Personal Information, or laws governing disclosures of Personal Information to law enforcement. In all such cases, Anti-Doping Organizations are expected to comply with applicable privacy and data protection laws.]~~

~~4.3~~ 4.3 *Anti-Doping Organizations* shall be able to demonstrate that their Processing of Personal Information takes place in accordance with this *International Standard*, in particular through the adoption of appropriate internal policies and procedures reflecting their adherence to this *International Standard*.

~~[Comment to Article 4.3: Anti-Doping Organizations can only are expected to have documented policies, processes and procedures that demonstrate how they effectively adhere to the requirements of Part Two of this International Standard by having in place documented internal policies, procedures and information governance standards relating to Personal Information.]~~

4.4 *Anti-Doping Organizations* shall designate an individual or individuals within their organization for the purpose of ensuring the *Anti-Doping Organization's* compliance with this *International Standard* and all applicable privacy and data protection laws. They shall ensure that the contact information of the individual or individuals so

designated is made readily available to individuals in accordance with Article 8.

5.0 Implementing Privacy-by-Design

5.1 Anti-Doping Organizations shall consider how standards for the handling of Personal Information set out in this Part Two are best implemented in their Processing of Personal Information. This requires:

- a) Evaluating Processing activities to determine whether the requirements of this Part Two are being met, both at the time of design or redesign of an anti-doping process or system and throughout the Personal Information lifecycle, and
- b) Determining what measures are necessary or appropriate to mitigate any data protection risks identified during this evaluation, such as additional security controls or data minimization measures, including technical and organizational measures.

[Comment to Article 5.1: Anti-Doping Organizations shall embed data protection considerations in the design of processes and systems used in Anti-Doping Activities, for instance, to develop a Test Distribution Plan and make decisions about Target Testing. Embedding privacy-by-design in the Personal Information lifecycle and mitigating identified data protection risks means considering relevant controls from collection through to destruction of Personal Information, for example, ensuring the ability of an IT system to automatically apply applicable retention periods.]

5.2 In particular, to satisfy the requirements of Article 5.1, *Anti-Doping Organizations shall:*

~~4.4 Anti-Doping Organizations shall maintain a record a)~~ Maintain up-to-date records of—the Processing of Personal Information for the Anti-Doping Activities for which they are responsible, which shall describe the ~~general~~ purposes of the Processing, a description of the types of Personal Information, categories of individuals the Personal Information relates to, the categories of potential recipients of the Personal Information, ~~a description of the safeguards used where Personal Information is disclosed to other Anti-Doping Organizations, Third Parties, or Third Party Agents, the period for which the Anti-Doping Organization's, and where relevant the recipient's, role in relation to Personal Information will be stored, or the criteria used to determine this period~~ Processed, and where possible, a general description of the technical and organizational security measures applied to the Personal Information.

[Comment to ~~4.4~~Article 5.2.a: Anti-Doping Organizations ~~must~~shall maintain a record of their Processing activities, to better ensure their effective oversight of these activities and to facilitate compliance with this International Standard. With respect to the ADAMS database administered by WADA, WADA shall ~~be solely responsible for maintaining a record reflecting~~maintain and provide access to documentation describing the types of Processing of Personal InformationPersonal Information that occur within the database.]

~~4.5 Anti-Doping Organizations shall designate a Person who is accountable for compliance with this International Standard and all locally applicable privacy and data protection laws. They shall ensure that the contact information of the Person so designated is made readily available to Participants in accordance with Article 7.~~

5.0 Processing Relevant and Proportionate Personal Information

- b) Assess, and where necessary, review the risks arising from their Processing of Personal Information and implement measures to reduce any risk of Personal Information Breach or other data protection risks arising from the Processing.

[Comment to Article 5.2.b: Where the risk assessment indicates that the Processing involves a high risk to individual rights and freedoms, Anti-Doping Organizations may additionally be required by law to conduct a data protection impact assessment (or its equivalent), for example, for Processing involving profiling, large-scale processing of Sensitive Personal Information, or certain artificial intelligence applications. Notwithstanding legal requirements, data protection impact assessments are recommended for all high-risk Processing and are best conducted before commencing the relevant Processing activity.]

~~5.1 5.3~~ Anti-Doping Organizations shall only Process ensure the Processing of Sensitive Personal Information where relevant and proportionate in order to conduct Anti-Doping Activities under the Code and International Standards, provided such Processing does not conflict with occurs in accordance with any specific safeguards or procedures established under applicable privacy and data protection laws, or where otherwise required by applicable law, regulation or compulsory legal processes as well as this International Standard.

~~5.2~~ [Comment to Article 5.3: This International Standard imposes additional restrictions where Anti-Doping Organizations Process Sensitive Personal Information, reflecting the greater sensitivities surrounding the Processing of such information. Anti-Doping Organizations shall not Process should identify what Sensitive Personal Information that is irrelevant or unnecessary in the context of their Anti-Doping Activities as identified in Article 5.1.

~~[Comment to 5.2: Anti-Doping Organizations shall examine the different contexts in which they Process, and then shall consider and apply relevant legal requirements to the Processing of such Sensitive Personal Information to ensure that the Processing of the Personal Information in any given case is required in order to satisfy one of the purposes identified in Article 5.1. Where Anti-Doping Organizations cannot satisfy themselves that the Processing is necessary, they shall refrain from Processing the Personal Information.]~~

5.3 In particular, except as otherwise expressly required by law:

- a) ~~Anti-Doping Organizations Processing Personal Information (which may involve Processing Sensitive Personal Information relating to Athletes and Processing non-Sensitive Personal Information relating to Participants and potentially other Persons) in order to determine whether an Athlete's use of a Prohibited Substance or Prohibited Method is consistent with the provisions of a TUE, shall Process only the Personal Information proportionate and relevant for making this determination in accordance with the Code and/or the International Standard for Therapeutic Use Exemptions.~~
- b) ~~Anti-Doping Organizations Processing Personal Information relating to Participants and other Persons in order to perform Testing, shall Process only the Personal~~

~~Information (including whereabouts information and TUEs) proportionate and relevant for conducting Testing (e.g., test distribution planning, Sample collection, Sample handling, Sample transport to the laboratory or associated matters) in accordance with the Code and/or the International Standard for Testing and Investigations.~~

~~c) Anti-Doping Organizations Processing Personal Information relating to Participants and other Persons in order to engage in investigations and Results Management (including associated disciplinary hearings, appeals and adjudications) shall Process only the Personal Information, including but not limited to whereabouts information, TUEs, test results, and non-analytical intelligence or information, proportionate and relevant for investigating and establishing one or more anti-doping rule violations in accordance with the Code and/or the International Standard for Results Management and the International Standard for Testing and Investigations.~~

~~d) Anti-Doping Organizations may Process Personal Information relating to Participants and other Persons for other specified purposes, provided that those purposes relate exclusively to the fight against doping and are found to be relevant to that fight following an appropriately documented assessment performed by the Anti-Doping Organization.~~

~~[Comment to 5.3.d.: In certain contexts, it may be appropriate or necessary for Anti-Doping Organizations to Process Personal Information for additional purposes, besides those identified as Anti-Doping Activities or expressly required by law, in order to engage effectively in the fight against doping. Such Processing must be exclusively linked to the fight against doping and may only occur where the Anti-Doping Organization has documented the need to perform such Processing. The general limitations set out in 5.1 and 5.2 continue to apply to any Processing of Personal Information for such purposes.]~~

5.4 Personal Information Processed by 5.4 Anti-Doping Organizations shall ~~be Processed fairly and shall be~~ implement measures to ensure Personal Information Processed is accurate, complete and kept up to date. Anti-Doping Organizations shall correct or amend as soon as possible any Personal Information that they know to be incorrect or inaccurate, taking into account the responsibilities of Participants individuals to provide accurate and up-to-date information regarding themselves to Anti-Doping Organizations, including in the context of the provision of whereabouts information.

~~[Comment to Article 5.4: Where Participants individuals are responsible for providing Personal Information about themselves directly to Anti-Doping Organizations and for keeping it accurate, complete and up-to-date, they should be informed of this obligation and, whenever practicable, offered reasonable means to fulfill it. For instance, this could involve furnishing individuals with access to their Personal Information via the Internet through online tools and resources.]~~

6.0 Processing Relevant and Proportionate Personal Information for Limited Purposes

6.1 Anti-Doping Organizations shall only Process Personal Information where relevant and proportionate, and for purposes permitted under the Code or the International Standards or where required by law, compulsory legal process, or to exercise or defend against legal claims.

[Comment to Article 6.1: Anti-Doping Organizations shall examine relevant provisions of the Code and other International Standards to determine what Personal Information Processing is required. In many cases, the Code and International Standards will identify Personal Information required to be collected or Processed, and situations where Anti-Doping Organizations shall make a determination as to what

Personal Information to collect or Process, for example, when determining the types of whereabouts requested from Athletes outside the Registered Testing Pool. To better ensure their Processing of Personal Information remains relevant and proportionate, Anti-Doping Organizations shall implement data minimization measures as set forth in Article 5(1)(b).]

6.2 In certain contexts, it may be appropriate or necessary for *Anti-Doping Organizations* to Process Personal Information outside the circumstances expressly described in the *Code* or *International Standards* to engage effectively in the fight against doping. Such Processing shall only occur after the *Anti-Doping Organization* has conducted and documented an assessment of data protection risks, considering the effectiveness of the contemplated Processing in the fight against doping, and implemented any identified risk mitigating measures, in each case in line with Article 5.

[Comment to Article 6.2: The natural evolution of anti-doping practices and improvement in methods for detecting doping, or other unforeseen circumstances (e.g., COVID), may give rise to circumstances where it is appropriate or necessary for Anti-Doping Organizations to Process Personal Information to effectively detect, investigate or otherwise combat doping in a manner not expressly set forth in the Code or International Standards. For the avoidance of doubt, Article 6.2 should not be understood as bringing within the scope of this International Standard the Processing of Personal Information for purposes unrelated to Anti-Doping Activities.]

7.0 ~~6.0~~ **Processing Personal Information in Accordance with a Valid Legal Ground**

~~6.1~~ **7.1** *Anti-Doping Organizations* shall only Process Personal Information in accordance with a valid legal ground, which can include:

- a) Compliance with legal obligations, performance of a public interest task, where necessary for reasons of substantial public interest, public health, or fulfillment of a contract, or to protect the vital interests of the ~~Participant and other Persons~~individual; or
- b) Where permitted, consent of ~~a Participant or other Person~~an individual, which shall be informed, freely given, specific and unambiguous, subject to the exceptions in Article ~~6.2~~7.2.b, ~~6.3~~7.3 and ~~6.4~~7.4 of this *International Standard*.

[Comment to ~~6.1~~Article 7.1: Anti-Doping Organizations shall review and consider applicable laws to identify the legal ground(s) applicable to their Anti-Doping Activities. Principal responsibility for obtaining the consent of an Athlete or other individual, and/or his or her associated Athlete Support Personnel, or for establishing another valid legal ground, shall rest with the Anti-Doping Organization(s) that has the then-primary relationship with the relevant Participant individual. Articles 7.2 to 7.4 apply only to Anti-Doping Organizations relying on consent as a legal ground for their Processing of Personal Information.]

~~6.2~~ **7.2** Where *Anti-Doping Organizations* Process Personal Information on the basis of consent (including sharing Personal Information with WADA), *Anti-Doping Organizations* shall, in order to obtain an informed, specific and unambiguous consent, ensure that adequate information is furnished to the ~~Participant or Person~~individual to whom the Personal Information relates, as described more fully in Article ~~7.8.a~~7.2. In particular, *Anti-Doping Organizations* shall ~~inform Participants~~

- a) Inform individuals of the negative *Consequences* that could arise from their ~~refusal to participate in Doping Controls, including Testing, and of the~~ refusal to consent to the Processing of Personal Information ~~as required for this~~

~~purpose~~ Anti-Doping Activities.

[Comment to ~~6.2~~ Article 7.2.a: For the avoidance of doubt, ~~Participants~~ individuals shall be informed that their refusal to ~~participate in~~ consent to the Processing of Personal Information for Anti-Doping Controls ~~Activities~~, when requested to do so, could prevent their continued involvement in organized sport and, for Athletes, constitute a violation of the Code and invalidate Competition results, among other things. ~~A Participant who believes that an Anti-Doping Organization does not comply with this International Standard may notify WADA pursuant to Article 11.5, which shall, without prejudice to any other rights the Participant may have under applicable law, consider the grounds for the complaint.~~]

- b) ~~Where Anti-Doping Organizations Process Personal Information on the basis of consent (including sharing Personal Information with WADA), Anti-Doping Organizations shall inform Participants~~ Inform individuals that regardless of any refusal to grant or subsequent withdrawal of consent, the Processing of their Personal Information by Anti-Doping Organizations still may be required, unless otherwise prohibited by applicable law, where necessary to enable Anti-Doping Organizations:
- i. To commence or pursue analyses or investigations involving suspected anti-doping rule violations relating to the ~~Participant~~ individual;
 - ii. To conduct or participate in proceedings involving suspected anti-doping rule violations relating to the ~~Participant~~ individual; ~~or~~
 - iii. To establish, exercise or defend against legal claims relating to an Anti-Doping Organization and/or the ~~Participant~~ individual; or
 - iv. To comply with law or a compulsory legal process.

[Comment to ~~6.2~~ Article 7.2.b: In certain limited circumstances, Anti-Doping Organizations ~~must~~ shall have the ability to Process Personal Information in the absence of the ~~Participant~~ individual's consent. These exceptions are necessary to avoid situations where ~~Participants~~ individuals refuse to grant consent or withdraw consent in order to circumvent anti-doping efforts and procedures and evade detection for a doping violation.]

~~6.3~~ 7.3 ~~Where Anti-Doping Organizations Process Sensitive Personal Information on the basis of consent (including sharing Sensitive Personal Information with WADA), the explicit consent of the Participant or Person~~ individual to whom the Personal Information relates shall be obtained. ~~The Processing of Sensitive Personal Information shall occur in accordance with any specific safeguards or procedures established under applicable privacy and data protection laws.~~

[Comment to ~~6.3~~: ~~This International Standard imposes additional restrictions where Anti-Doping Organizations Process Sensitive Personal Information, reflecting the greater sensitivities surrounding the Processing of such information. Specifically, explicit~~ Article 7.3: Explicit consent requires a positive, explicit action agreeing to the relevant Processing by the ~~Person~~ individual to whom the Personal Information relates, such as by the ticking of a "tick box" or the application of an individual's signature or initials. Although the International Standard defines Sensitive Personal Information to expressly include different classes of information, this is not to suggest that such information should be Processed by Anti-Doping Organizations; the need to do so shall first be evaluated as required by Article 5.16.]

~~6.4~~ 7.4 ~~In cases where a Participant~~ an individual is incapable of furnishing an informed

consent by virtue of age, mental capacity or other legitimate reason recognized in law, the ~~Participant~~individual's legal representative, guardian or other competent representative may furnish consent on the ~~Participant~~individual's behalf for purposes of this *International Standard*, as well as exercise the ~~Participant~~individual's rights arising under Article ~~11~~12 below. *Anti-Doping Organizations* shall ensure that obtaining consents under such circumstances is permitted by applicable law.

8.0 ~~7.0~~ Ensuring Appropriate Information is Furnished to ~~Participants and Other Persons~~Individuals

~~7.1~~ 8.1 An *Anti-Doping Organization* shall inform ~~Participants or Persons~~individuals to whom the Personal Information relates about the Processing of their Personal Information. This information shall include:

- a) The identity of the *Anti-Doping Organization* collecting the Personal Information and contact details of the *Person* appointed pursuant to ~~Section 4.5~~Article 4.4;
- b) Types of Personal Information that may be Processed;
- c) The purposes for which the Personal Information may be used;
- d) Categories of potential recipients of the Personal Information, including *Anti-Doping Organizations* (such as WADA), ~~Third Parties~~ and Third-Party Agents who may be located in other countries where the ~~Participant~~individual may compete, train or travel;
- e) The possibility and circumstances under which Personal Information may, where permitted by applicable law, be *Publicly Disclosed* (such as the disclosure of ~~test results and tribunal decisions~~anti-doping rule violation dispositions);
- f) The ~~Participant~~individual's rights with respect to the Personal Information under this *International Standard* or other applicable laws and the means to exercise those rights;
- g) The procedure for submitting complaints pursuant to Article ~~11.5~~12.5 and the possibility, if any, to submit complaints to competent data protection authorities;
- h) The period for which the Personal Information will be stored, or the criteria used to determine this period; and
- i) Any other information necessary to ensure that the Processing of Personal Information remains fair, such as information about regulatory authorities or bodies that oversee the *Anti-Doping Organization's* Processing of Personal Information.

~~7.2~~ 8.2 *Anti-Doping Organizations* shall communicate the above information to ~~Participants or other Persons~~individuals prior to or at the time that they collect Personal Information from ~~Participants or other Persons~~individuals in the form and manner specified in Article ~~7.3; and~~8.3. *Anti-Doping Organizations* shall be responsive to the questions or concerns of ~~Participants~~individuals relating to the

Processing of their Personal Information by the Anti-Doping Organization or their Third-Party Agents. Where Anti-Doping Organizations receive Personal Information from third parties, and not directly from the ~~Participant~~individual, they shall communicate the above information as soon as possible and without undue delay, unless it has previously been furnished to the ~~Participant or other Person~~individual by other parties. Exceptionally, notice to ~~the Participant or other Persons~~individuals may be delayed or suspended where providing such notice might reasonably be considered to jeopardize an anti-doping investigation or otherwise undermine the integrity of the anti-doping process. In such cases, the justification for the delay ~~must~~shall be appropriately documented and the information provided to the ~~Participant or other Persons~~individuals as soon as reasonably possible.

[Comment to ~~7.2~~Article 8.2: Anti-Doping Organizations should recognize that basic principles of fairness require that where ~~a Participant~~an individual's Personal Information is Processed in the context of Anti-Doping Activities, he or she should receive or have access to information that explains in simple terms the purpose and procedures for the Processing of their Personal Information. This International Standard aspires to ensure that Participantsindividuals acquire a basic grasp of the roles and responsibilities performed by the different organizations involved in anti-doping in sport, as those relate to the Processing of Personal Information. Under no circumstances should Anti-Doping Organizations seek to mislead or misinform Participantsindividuals in order to Process their Personal Information. In addition to furnishing such information directly to ~~Participants or other Persons~~individuals, Anti-Doping Organizations may wish to make such information available on any websites or other online platforms that they operate.

Each Anti-Doping Organization should ensure that its Processing of Personal Information is transparent to Participantsindividuals, notwithstanding the fact that certain information relating to Anti-Doping Activities, notably information concerning scheduled Testing ~~and~~ investigations and proceedings relating to anti-doping rule violations, may need to be temporarily withheld from Participantsindividuals in order to maintain the integrity of the anti-doping process. Similarly, notice to Participantsindividuals also may need to be temporarily withheld if providing the information might reasonably risk jeopardizing an ongoing or reasonably anticipated investigation into doping-related activities conducted by an Anti-Doping Organization or law enforcement agencies. The prompt provision of appropriate information to Participantsindividuals pursuant to this Article 7 is essential given the serious adverse Consequences that might arise if Participantsindividuals are found to have committed an anti-doping rule violation.]

7.3-8.3 Anti-Doping Organizations shall provide the above information in a manner and format, whether written, oral or otherwise, that ~~Participants or Persons~~individuals to whom the Personal Information relates can easily comprehend, using clear and plain language. Anti-Doping Organizations shall take into account the individual's age ~~and mental capacity of the Participant or other Person~~ or any relevant impairments, as well as local practices, customs and the particular circumstances surrounding the Processing of the Personal Information.

[Comment to ~~7.3~~Article 8.3: Anti-Doping Organizations need to determine the most effective means of providing information in particular cases, recognizing that furnishing Participantsindividuals with written notice is to be preferred when practical. This also may include furnishing notices through generally available sources, such as brochures and Internet websites, alone or preferably in combination with more succinct notices on forms and other documentation provided directly to Participants. ~~Anti-Doping Organizations also must take into account the specific circumstances of the Participant or other Person, in particular factors such as their age or mental capacity that impact their ability to understand the information being presented to them by the Anti-Doping Organization~~individuals.]

9.0 ~~8.0~~ Disclosures of Sharing Personal Information ~~to other~~ Responsibly

9.1 Anti-Doping Organizations ~~and Third Parties~~shall only share Personal Information with other Persons:

~~8.1 Anti-Doping Organizations shall not disclose Personal Information to other Anti-Doping Organizations except where such disclosures are necessary to allow the Anti-Doping Organizations receiving the Personal Information to fulfill obligations~~

- ~~a) For purposes permitted under the Code and/or the International Standards and; or~~
- ~~b) With the explicit and valid consent of the relevant individual in accordance line with Article 7, provided such Processing is not contrary to applicable privacy and data protection laws.~~

~~[Comment to 8.1: In many instances required by the Code and the International Standards, it is necessary for Anti-Doping Organizations to share certain Personal Information relating to Participants with other Anti-Doping Organizations so that they may engage in Code-mandated Testing or otherwise fulfill their respective roles under the Code/International Standards. For instance, this may occur in order to subject Athletes to In-Competition and Out-of-Competition Testing. In such cases, Anti-Doping Organizations shall cooperate with one another to ensure that the participation by Participants in such Testing remains suitably transparent to Participants and complies with the rules set out in this International Standard and applicable laws.]~~

~~8.2 Anti-Doping Organizations shall not disclose Personal Information to other Anti-Doping Organizations: (i) where the recipient Anti-Doping Organizations cannot establish a right, authority or need to obtain the Personal Information; (ii) where there is evidence that the recipient Anti-Doping Organizations do not or cannot comply with this International Standard; (iii) where the Anti-Doping Organization is prohibited from disclosing the Personal Information by applicable law or restrictions imposed by a competent supervisory authority; or (iv) where the disclosure would seriously compromise the status of an ongoing investigation into anti-doping rule violations. Where an Anti-Doping Organization has concerns that another Anti-Doping Organization is incapable of complying with this International Standard, it shall make its concerns known to the Anti-Doping Organization and WADA as soon as possible.~~

~~8.3 Apart from the disclosures referenced in Sections 8.1 and 8.2 above, Anti-Doping Organizations may disclose Personal Information to Third Parties where such disclosures:~~

- ~~a) Are required by law, regulation or compulsory legal process;~~
- ~~b) Take place with the informed, express consent of the relevant Participant; or~~
- ~~c) Are necessary to assist law enforcement or governmental or other authorities in the detection, investigation or prosecution of a criminal offence, breach of professional conduct rules, or breach of the Code; provided that the Personal Information is reasonably relevant to the offence or breach in question and cannot otherwise reasonably be obtained by the relevant authorities.~~

~~[Comment to 8.3.c: The ability of an Anti-Doping Organization to cooperate and exchange Personal Information with law enforcement agencies and other authorities and the manner by which this is to occur may depend upon applicable national laws and regulations. Such rules may sometimes require or encourage Anti-Doping Organizations to disclose Personal Information to law enforcement and other authorities when they are aware that this information may be relevant to an investigation. Anti-Doping Organizations must comply with such national obligations where they exist.]~~

9.0 Maintaining the Security of Personal Information

9.1 ~~Anti-Doping Organizations shall protect Personal Information that they Process by applying all necessary security safeguards, including physical, organizational, technical, environmental and other measures, to prevent a Security Breach.~~

[Comment to 9.1: Anti-Doping Organizations shall ensure that any access to Personal Information by their own personnel shall take place on a need-to-know basis only and where consistent with assigned roles and responsibilities. Personnel accessing Personal Information should be informed of the need to hold Personal Information in confidence.]

9.2 ~~Anti-Doping Organizations shall apply security measures that take into account the sensitivity of the Personal Information being Processed. Anti-Doping Organizations shall apply a higher level of security to the Sensitive Personal Information that they Process, reflecting the correspondingly greater risk that a Security Breach involving such information presents to the Participant or Person to whom the Personal Information relates. laws; or~~

c) Where required by law, compulsory legal process, or to exercise or defend against legal claims.

9.2 Anti-Doping Organizations shall comply with all other standards for the handling of Personal Information set out in this Part Two with respect to any such sharing, in particular, sharing Personal Information only where the relevant Person establishes a need-to-know, a valid legal basis exists for the sharing, and the security of the Personal Information is ensured. This applies, without limitation, to any sharing of Personal Information with law enforcement or governmental or other authorities in connection with an Anti-Doping Organization's Anti-Doping Activities. Anti-Doping Organizations shall also comply with any specific requirements set out in the Code and the International Standards, related to the sharing purpose.

[Comment to Article 9.2: For example, the Code and International Standard for Results Management set out specific confidentiality requirements and limits on when information regarding anti-doping rule violations can be shared. Public Disclosure of anti-doping rule violations is also subject to requirements under the Code.]

9.3 ~~9.3~~ Anti-Doping Organizations sharing Personal Information with Third-Party Agents in connection with their Anti-Doping Activities shall ensure:

a) Choose Third-Party Agents that provide sufficient guarantees, in accordance with applicable law and this International Standard, in respect of the technical security measures and organizational measures governing the Processing to be performed.

[Comment to Article 9.3.a: This Article requires Anti-Doping Organizations to conduct appropriate due diligence to verify the measures implemented by the Third-Party Agent, for example by requesting that such Third-Party Agents provide evidence of their technical and organizational measures.]

b) Ensure that such Third-Party Agents are subject to appropriate controls, including contractual and technical controls, in order to protect the confidentiality and privacy of the any Personal Information being shared and

to ensure that the Personal Information is only Processed on behalf of the Anti-Doping Organization or within the scope of the delegation or engagement of such Third-Party Agent, as the case may be.

[Comment to Article 9.3: Anti-Doping Organizations have an ongoing responsibility to protect any Personal Information under their effective control or in their possession, including Personal Information Processed by their Third-Party Agents, such as IT-service providers, laboratories, external experts, Delegated Third Parties, Doping Control Coordinators, and external Doping Control Officers. Anti-Doping Organizations shall apply contractual controls that can include, as appropriate, provisions to ensure Third-Party Agents only Process Personal Information on the documented instructions of the Anti-Doping Organization, subject any Third-Party Agent or its staff handling Personal Information to a duty of confidentiality, apply appropriate technical security measures and organizational measures to the Personal Information, refrain from engaging other parties to Process the Personal Information without prior authorization and appropriate contractual controls being in place, require assistance where ~~Participants or other Persons~~ individuals assert rights under this International Standard or applicable law, delete or return all Personal Information at the conclusion of the service or upon request, and make information available to the Anti-Doping Organization to demonstrate compliance with such controls. Anti-Doping Organizations shall consider technical controls where Third-Party Agents are granted access to their systems that include, inter alia, access restrictions and authentication requirements.]

~~9.4 Anti-Doping Organizations are required to choose Third-Party Agents that provide sufficient guarantees, in accordance with applicable law and this International Standard, in respect of the technical security measures and organizational measures governing the Processing to be carried out.~~

10.0 Maintaining the Security of Personal Information

10.1 Anti-Doping Organizations shall protect Personal Information that they Process by applying all necessary security safeguards, including physical, organizational, technical, environmental and other measures, to prevent a Personal Information Breach.

10.2 In particular, Anti-Doping Organizations shall ensure that:

- a) Any access to Personal Information by their own personnel takes place on a need-to-know basis only and where consistent with assigned roles and responsibilities;
- b) Personnel accessing or otherwise Processing Personal Information are subject to a fully enforceable contractual and/or statutory duty of confidentiality; and
- c) Personnel have received information and training about the need to hold Personal Information in confidence, and the Anti-Doping Organization's policies and procedures regarding the Processing and protection of Personal Information.

10.3 Anti-Doping Organizations shall apply security measures that take into account the sensitivity of the Personal Information being Processed. Anti-Doping Organizations shall apply a higher level of security to the Sensitive Personal Information that they Process, reflecting the correspondingly greater risk that a Personal Information Breach involving such information presents to the individual to whom the Personal

Information relates.

[Comment to Article 10.3: Anti-Doping Organizations need to ensure that they apply security measures throughout the entire lifespan of the Personal Information that they Process, and account for the fact that they may Process certain categories of Personal Information, such as whereabouts information designated TUEs (if any), anti-doping test results, and Results Management information, for long periods of time that can span many years. In appropriate cases, Anti-Doping Organizations should apply archiving techniques to store Personal Information outside of live systems subject to strict access controls.]

9.5–10.4 In the event of a ~~Security~~ **Personal Information** Breach, the responsible Anti-Doping Organization shall inform affected ~~Participants or other natural Persons~~ **individuals** of the breach, where this breach is likely to affect in a significant way the rights and interests of those *Persons* concerned. The information ~~must~~ **shall** be provided ~~as soon as reasonably possible~~ **without undue delay** once the Anti-Doping Organization becomes aware of the details of the ~~Security~~ **Personal Information** Breach and ~~should~~ **shall, to the extent possible,** describe the nature of the breach, the possible negative consequences for those ~~Persons~~ **individuals** concerned and the remediation measures taken or to be taken by the Anti-Doping Organization. Additionally, the Anti-Doping Organization shall ensure that the *Person* appointed pursuant to ~~Section 4.5~~ **Article 4.4** is also informed about the ~~Security~~ **Personal Information** Breach. The Anti-Doping Organization shall keep a record of ~~Security~~ **Personal Information** Breaches, including the facts relating to the breach, its effects and remedial actions taken.

*[Comment to 9.5–Security Article 10.4: Personal Information Breach notification obligations are becoming increasingly common throughout the world. Pursuant to Article 4 of this International Standard, Anti-Doping Organizations ~~must~~ **shall** comply with national obligations that go beyond the International Standard (i.e., some national regimes may require additional notification to a competent authority or other organizations or impose specific timeframes for notification). A breach does not significantly affect an individual when the *Personal Information* in question is subject to suitable technological protection measures (e.g., encryption) and there is no indication that the protection has been compromised. Notice shall be given by any appropriate means, whether written, verbally or otherwise, taking into account the particular circumstances of the ~~Security~~ **Personal Information** Breach, including the prejudice that the relevant ~~Persons~~ **individuals** may suffer as a result of the ~~Security~~ **Personal Information** Breach.]*

~~9.6 Anti-Doping Organizations shall regularly assess their Processing of Sensitive Personal Information and whereabouts information to determine the proportionality and risks of their Processing and to assess any measures, including privacy by design measures, that could be taken to reduce the risks for the Participants concerned.~~

~~[Comment to 9.6: The requirement to conduct assessments of the Processing of Sensitive Personal Information and whereabouts information on a regular basis is intended to provide Anti-Doping Organizations flexibility to conduct such assessments at an appropriate frequency reflecting applicable privacy and data protection laws, and any changes to such Processing. For instance, Anti-Doping Organizations have the discretion under the International Standard for Testing and Investigations to collect varying types and amounts of whereabouts information from different tiers of Athletes. The establishment of appropriate types and amounts of whereabouts information, as well as any changes to such requirements may require an assessment.]~~

11.0 9.7 Anti-Doping Organizations shall ensure that any staff ~~Processing~~ **Limiting Retention of Personal Information** of *Participants* ~~is subject to a fully enforceable contractual and/or statutory duty of confidentiality.~~

10.0 Retaining Personal Information Where Relevant and Ensuring Its Destruction

10.1-11.1 Anti-Doping Organizations shall adhere to those maximum retention times set forth in the latest version of Annex A – Retention Times attached hereto, subject to the exceptions set out in Article 11.5.

[Comment to Article 11.1: Different retention times are applied to different types of Personal Information in Annex A, taking into account the purposes for which the Personal Information is Processed in the context of Anti-Doping Activities, including the granting of TUEs, Testing, the investigation of anti-doping rule violations, and the sanctioning of such violations. WADA shall be solely responsible for implementing the retention times set forth in Annex A within the Doping Control information database administered by WADA, currently ADAMS. Anti-Doping Organizations shall retain any Personal Information for which no retention time has been set in Annex A in accordance with the following principles, and where possible, are solely responsible for implementing Annex A retention times in their own systems and databases. Minor adaptations of applicable retention triggers or periods are permitted where required to operationalize such triggers or periods in different systems.]

11.2 Where Personal Information falls outside the scope of Annex A, Anti-Doping Organizations shall establish clear retention times or relevant criteria to govern their Processing of Personal Information consistent with ~~such~~the principles below.

[Comment to 10.1: WADA shall be solely responsible for implementing the retention times set forth in Annex A within the ADAMS database administered by WADA.]

10.2 ~~As a general rule, retaining Sensitive Personal Information requires stronger or more compelling reasons and justifications than retaining non-Sensitive Personal Information.~~

10.3-11.3 Anti-Doping Organizations shall ensure that Personal Information is only retained where ~~it remains relevant to fulfilling their obligations under the Code or under the International Standards or where otherwise required by applicable law, regulation or compulsory legal process~~justified in line with Article 6.1. Once Personal Information no longer serves ~~the above~~such purposes, it shall be deleted, destroyed or ~~permanently~~ anonymized. As a general rule, retaining Sensitive Personal Information requires stronger or more compelling reasons and justifications, and protected in accordance with any specific safeguards or procedures under applicable privacy and data protection laws pursuant to Article 5.3.

[Comment to Article 11.3: Even prior to destruction or anonymization, Anti-Doping Organizations should implement measures to minimize their retention and Processing of Personal Information, for example, by moving Personal Information to an archive with more limited access when regular access is no longer required, or by de-identifying or pseudonymizing Personal Information.]

10.4-11.4 Anti-Doping Organizations shall develop specific plans and procedures to ensure the secure retention and eventual destruction or anonymization of Personal Information.

10.5 ~~Different retention times may be applied to different types of Personal Information and shall take into account the purposes for which the Personal Information is Processed in the context of Anti-Doping Activities, including the granting of TUEs, Testing, the investigation of anti-doping rule violations, and the sanctioning of such violations.~~

11.5 Subject to the conditions of Article 11.6, retention times set out in Annex A may be

extended:

- a) Where expressly permitted by law; or
- b) Where required by law or compulsory legal process; or
- c) In case of pending or reasonably anticipated anti-doping rule violations, investigations, or other legal proceedings; or
- d) With the explicit and valid consent of the relevant individual in line with Article 7; or
- e) Where Annex A specifically contemplates other circumstances where Anti-Doping Organizations may extend maximum retention periods.

[Comment to Article 11.5: Article 11.5 a) refers to circumstances where a sports or anti-doping law, or other law applicable to an Anti-Doping Organization, expressly contemplates retention of anti-doping information and identifies a permitted data retention period, as opposed to circumstances where data retention remains unregulated.]

11.6 In deciding to extend a retention period in specific cases or for a specific category of records, Anti-Doping Organizations shall consider and apply the criteria of this Article 11 and any additional requirements under applicable laws, as well as conduct an assessment of data protection risks, considering the need for the contemplated retention in the fight against doping, and implement mitigating measures for any identified risks, in each case in line with Article 5.

12.0 ~~11.0~~ **Rights of ~~Participants and Other Persons~~ Individuals with Respect to Personal Information**

~~11.1~~ ~~Participants or Persons~~ **12.1** Individuals to whom the Personal Information relates shall have the right to obtain from Anti-Doping Organizations: {

- a) ~~confirmation~~ Confirmation of whether or not Anti-Doping Organizations Process Personal Information relating to them; {
- b) ~~the~~ The information as per Article ~~7.1, 8.1~~ and {
- c) ~~a~~ A copy of the relevant Personal Information within one (1) month, where practicable, or as soon as possible thereafter, in a readily intelligible format, and without excessive cost, subject to limited exceptions prescribed by law or unless to do so in a particular case plainly conflicts with the integrity of the anti-doping system or an Anti-Doping Organization's ability to plan or conduct No Advance Notice Testing or to investigate and establish anti-doping rule violations or other legal claims.

[Comment to ~~11.1: Participants or other Persons~~ Article 12.1: Individuals may also have additional rights under applicable privacy and data protection laws, and Anti-Doping Organizations shall follow the process set out herein when responding to requests in respect of such additional rights, as applicable. Principal responsibility for receiving and responding to requests from ~~Participants or other Persons~~ individuals shall rest with the Anti-Doping Organization(s) that has the then-primary relationship with the relevant Participant/Person individual. To the extent it receives any such requests, WADA will respond in coordination with the relevant Anti-Doping Organization. Save in exceptional circumstances, (which may include situations where the amount of Personal Information at

issue is significant and involves a disproportionate effort to assemble), an Anti-Doping Organization ordinarily is expected to respond no later than ~~four~~^{one} (41) ~~weeks~~^{month} from the date a properly formulated request is received. Anti-Doping Organizations shall be entitled to request additional information and clarifications from ~~Participants or Persons~~individuals in order to be able to respond to their request, including, where appropriate, additional information to confirm the identity of the ~~Participant or Person~~individual making the request.]

~~11.2~~ 12.2 Anti-Doping Organizations have to respond to requests from ~~Participants or Persons~~individuals to whom the Personal Information relates seeking access to their Personal Information, except if doing so imposes a disproportionate burden on the Anti-Doping Organizations in terms of cost or effort given the nature of the Personal Information in question.

~~11.3~~ 12.3 In the event an Anti-Doping Organization refuses to allow ~~a Participant or Person~~an individual access to his or her Personal Information, it shall inform the ~~Participant/Person~~individual and set out in writing the reasons for refusing the request as soon as practicable. Anti-Doping Organizations shall ensure that ~~Participants/Persons~~individuals only obtain Personal Information relating to themselves, and not relating to other ~~Participants or third Persons~~individuals, where they seek to obtain access to Personal Information pursuant to this Article ~~11~~12.

~~11.4~~ 12.4 Where an Anti-Doping Organization's Processing of Personal Information is shown to be inaccurate, incomplete, or excessive, it shall, as appropriate, rectify, amend, block or delete the relevant Personal Information as soon as possible. If the Anti-Doping Organization has disclosed the Personal Information in question to another Anti-Doping Organization that to its knowledge or belief continues to Process the Personal Information, it shall inform that Anti-Doping Organization of the change as soon as possible, unless this proves impossible or involves a disproportionate effort. The Anti-Doping Organization shall inform the ~~Participant or Person~~individual about these Anti-Doping Organizations where they request the information.

~~11.5~~ 12.5 Without prejudice to any other rights ~~a Participant or Person~~an individual may have under applicable laws, ~~a Participant or Person~~an individual shall be entitled to initiate a complaint with an Anti-Doping Organization where he or she has a reasonable, good-faith belief that an Anti-Doping Organization is not complying with this International Standard and each Anti-Doping Organization shall have a documented procedure in place for dealing with such complaints in a fair and impartial manner. In the event that the complaint cannot be satisfactorily resolved, the ~~Participant or Person~~individual may notify WADA, which will handle the complaint in accordance with the International Standard for Code Compliance by Signatories. Where the International Standard for ~~the Data~~ Protection of Privacy and Personal Information is not being adhered to, the relevant Anti-Doping Organization will be required to resolve the non-conformity in accordance with the International Standard for Code Compliance by Signatories. Nothing in this International Standard prevents ~~a Participant or Person~~an individual from lodging a complaint with any competent authority responsible for the protection of privacy and personal information, and Anti-Doping Organizations shall cooperate with such authorities when investigating the complaint.

ANNEX A: RETENTION TIMES

Scope:

This Annex A sets out maximum retention times for the main categories of anti-doping records containing Personal Information. It does not prevent *Anti-Doping Organizations* from setting shorter retention times or from keeping records stripped of Personal Information for longer periods. It does not constitute a complete retention schedule and does not replace general records management procedures that *Anti-Doping Organizations* may implement within their organization.

Acronyms:

ADRV: Anti-~~doping rule violation~~Doping Rule Violation
 AAF: Adverse ~~analytical finding~~Analytical Finding
 ATF: Atypical ~~finding~~Finding
 APF: Adverse ~~passport finding~~Passport Finding
 ATPF: Atypical ~~passport finding~~Passport Finding

Important Notes:

- I. ~~Referenced data will~~For operational reasons, there may be a delay between the expiry of a retention period and the time the affected data is effectively purged from a system. This delay should be~~deleted~~ no ~~later~~longer than the end of the calendar quarter following the expiry of the stated retention period.
- ~~II. Retention times are limited to two categories: Twelve (12) months and ten (10) years. The period of ten (10) years represents the time period during which an action may be commenced for an anti-doping violation under the Code. The period of twelve (12) months represents the time period relevant to count three (3) whereabouts failures giving rise to an anti-doping rule violation, and is also applied to certain incomplete documentation and TUE-related information.~~
- ~~III. Retention times can be extended in case of pending or reasonably anticipated anti-doping rule violations, investigations, or other legal proceedings~~where permitted by Articles 11.5 and 11.6.
- III. To improve data quality, *Anti-Doping Organizations* shall make efforts to clean and purge incomplete data from their systems (e.g., incomplete TUE or Testing documentation) as regularly as practicable.
- IV. Please also consider footnotes 1 to 4 below, which provide additional information regarding the application of this Annex A.

Module/Record Category	DataDescription	Retention Periods	Remarks	Criteria
1 – <u>Demographic and Profile Information (Athlete/other individuals)</u> <i>Athlete (general)</i>	Name, Date of birth, <u>ADAMS ID, BP ID, License number, Sport Discipline, nationality, gender, contact information (e.g., phone number(s), e-mail and Gender mailing address(es)).</u>	: 10 yrs as of time when Athlete is excluded from ADO's Testing program or as of time <u>Until all other data categories associated records</u> have been deleted (see, e.g. <u>SectionArticle 6</u> – ADRV), whichever is later.	<i>Athlete</i> data relevant for practical purposes and for notification purposes in the event of an ADRV. These data are not particularly sensitive. Necessary to <u>identify Athletes/other individuals</u> , notify of ADRV, and to keep a <u>understand who the other</u> record of Athletes included in an ADO's Testing program <u>categories relate to.</u>	Necessity
<u>2 – Whereabouts</u>	Contact information (phone number (s), email address, mailing address) <u>Address es for training and/or other locations, overnight accommodation, addresses for daily 60-minute timeslot, contact information in case Athlete cannot be found.</u>	<u>10 years as of end of the whereabouts quarter for which the data was submitted.</u>	10 yrs as of time when Athlete is excluded from ADO's Testing program <u>Relevant to count 3 whereabouts failures in 12 months' time and pursue such whereabouts failure cases following the 12-month period. Further, whereabouts remain relevant for a longer period to refine Testing strategies, e.g. based on training locations, to Results Management processes, including in cases of re-Testing or as related to the Athlete Biological Passport, and to investigations into potential ADRVs or strategies to evade Doping Controls.</u>	Same as above. Necessity

	Log data containing dates of submission or changes to whereabouts entries.	Until associated whereabouts data is deleted.	Log data are important to understand attempts to evade <i>Doping Controls</i>.
--	--	---	--

Module	Data	Retention Periods	Remarks
2 – Whereabouts* *(except for city, country, and <i>In-Competition</i> whereabouts information, which are needed for the <i>Athlete Biological Passport</i> – see section 7)			
Whereabouts	Whereabouts (other than city, country and <i>In-Competition</i> whereabouts)	12 months as of end of the whereabouts quarter for which the data was submitted	Relevant to count 3 whereabouts failures in 12 months
	Whereabouts failures (filing failures and missed tests)	10 years as of date of whereabouts failure	Relevant to count 3 whereabouts failures in 12 months; other possible ADRVs. If ADRV, will also be kept in management file (see section 6).
3 – TUEs TUE	TUE certificates and rejected TUE decision forms, including Supplementary Report Forms . TUE application forms and supp. med information and any other TUE info not otherwise expressly mentioned herein.	10 yrs years as of date of TUE expiry/date of rejection decision. 12 months from date of TUE expiry Retroactive TUEs 12 months from the date of decision .	Destroying medical information makes it impossible for WADA/ADOs to review TUEs retrospectively and assess its validity. TUE information is largely medically sensitive. Can be relevant in case of re-Testing or other investigations. Loses relevance after expiration of TUE or re-application.

	Incomplete TUEs	12 months from date of creation	Can be relevant in case of re-application.	Proportionality
Module	Data	Retention Periods	Remarks	Criteria
4 – Testing				
Testing	Doping Control Forms (DCF s)	10 yrs <u>years</u> as of Sample collection date	DCF s , associated mission/ Testing orders, and chain of custody documents are relevant for <i>Athlete Biological Passport</i> and in case of re- Testing of Samples . If ADRV, will also be kept as part of results-management <u>Results Management</u> file (see section <u>Article</u> 6).	Proportionality/Necessity
	Mission/ Testing orders and <u>associated documentation</u> .	Retained until all associated DCF s have been deleted.	Same as above.	Proportionality/Necessity
	Chain of custody	10 yrs <u>years</u> as of document creation date	Same as above.	Proportionality/Necessity
	Incomplete Testing documentation or documentation not matched to a Sample	12 months as of document creation date	Documentation that is incomplete or not matched to a Sample typically results from a data entry error and is discarded after a short delay for data integrity purposes.	Proportionality
5 – Test results/ <u>Results Management</u>		As of Sample collection date / date of creation of relevant documents:		
	Analytical test results (incl. AAF/ATF), laboratory reports, and other associated documentation	10 yrs*	Necessary because of multiple violations and retrospective analysis. If ADRV, will also be kept as part of results management file (see section 6).	Necessity
			*Subject to the criteria and requirements of the Code/International Standards, analytical data resulting from Sample analysis and other <i>Doping Control</i> information may, in certain circumstances, be kept beyond the applicable retention period for research and other purposes permitted by Article 6.3 of the <i>Code</i> . Samples and data must be processed to ensure they cannot be traced back to an athlete before being used for such secondary purposes. 10 years is the maximum retention time for identifiable data and Samples . See the <i>International Standard for Laboratories</i> for details.	Proportionality/Necessity

Module	Data	Retention Periods	Remarks
5 – Laboratory and APMU Records <u>Laboratory records</u> <u>APMU records</u>	Analytical test results (incl. <u>AAF/ATF</u>), laboratory reports, and other associated documentation. Biological variables, <u>ATPF</u> , <u>APF</u> , <u>APMU</u> reports, expert reviews, <u>ABP</u> documentation packages and associated laboratory documentation.	As of <u>Sample</u> collection date / date of match between results and <u>Doping Control</u> / date of creation of relevant documents, whichever is later: <u>10 years</u> . ¹ <u>10 years</u> . ¹	<u>Necessary because of multiple violations and retention of results.</u> <u>If ADRV, will also be kept as part of Results Management Article 6).</u> <u>Necessary because of multiple violations and to ensure biological variables, APMU reports, expert reviews, and ADRV, will also be kept as part of Results Management Article 6).</u>
Module	Data	Retention Periods	Remarks
6 – Proceedings and Decisions (ADRV) Results Management <u>Decisions and proceedings</u>	Sanctions and Disposition of anti-doping rule violation (e.g. nature of <u>ADRV</u>). Decisions under the <u>Code</u> (incl. <u>whereabouts</u>	As of date of final decision: Managed by disciplinary body / sports federation / ADO Longer of 10 yrs years or duration of sanction <u>period of Ineligibility</u> . ² <u>Longer of 10 years or duration of period of Ineligibility</u> . ³	<u>Necessary because of multiple violations and to ensure retention of sanctions.</u> * Decisions (e.g. CAS decisions) can be important legal precedents and part of the public record; in such cases, ADOs may decide to retain a decision beyond the period of Ineligibility.

¹ Subject to the criteria and requirements of the Code/International Standards, analytical data resulting from Sample analysis may, in certain circumstances, be retained for a longer period for research and other purposes permitted by Article 6.3 of the Code. Samples and analytical data shall be processed to ensure they cannot be traced back to the athlete for such purposes. 10 years is the maximum retention time for identifiable data and Samples. See the Code and International Standard for Laboratories for details.

² ADOs may decide to retain a record of the disposition of the anti-doping rule violation for a longer period to protect their sport or sport community considering its importance to take up other roles in sport, as well as for archiving purposes. This decision shall take into account the requirements of Article 11.6. This retention period shall not exceed the disclosure of sanctions set out in the Code.

³ Decisions (e.g., CAS decisions) can be important legal precedents and part of the public record; in such cases, ADOs may decide to retain a decision beyond the period of Ineligibility. decision shall take into account the requirements of Article 11.6.

	failures). Relevant documentation/files (incl. AAF or whereabouts failure record, case files, laboratory and ABP documentation packages, etc.).	Longer of 10 yrs years or duration of sanction period of Ineligibility .	and part of the public record; in such cases, AD retain a decision beyond the applicable retention Necessary because of multiple violations and p sanctions. Also relevant to assessment of other
7 – Athlete Biological Passport			
Results	Biological variables, ATPF, APF, APMU reports, expert reviews, ABP documentation packages and associated laboratory documentation.	10 yrs as of date of match between results and Doping Control Form/ date of creation of relevant documents	Necessary because of multiple violations and to a biological variables, APMU reports, expert reviews, ADRV, will also be kept as part of results management 6) possible duration of sanctions .
Whereabouts	Whereabouts (only city, country and <i>In-Competition</i> whereabouts)	10 yrs as of end of the whereabouts quarter for which the data was submitted	Needed to support atypical/abnormal results, or t claims.

<u>Module</u>	<u>Data</u>	<u>Retention Periods</u>	<u>Remarks</u>
<u>7 –Investigations</u>	Documents making up evidentiary record for a specific investigation and containing Personal Information. Record type(s) and content(s) will vary depending on the scope of the investigation. ⁴	10 years following the closure of an investigation.	Necessary because of multiple violations, and to understand doping practices and networks in time.
<u>8 – Education</u>	Courses completed, dates of completion, final score, role as a learner (<i>Athlete</i> , coach, etc.).	Until all other associated records are deleted or as long as active in sport, whichever is longer.	<u>These data are not sensitive.</u> Necessary to understand learner pathway over time and across different roles (e.g., youth to <i>Athlete</i> to coach). Critical in an ADRV case in relation to level of fault.

⁴ ADOs are also required to collect intelligence through hotlines to report doping and other means, which may contain *Personal Information*. ADOs shall establish records taking into account the retention periods for other record types in this Annex A, criteria set out in ISDP Article 11, and Part Two of the ISDP on proportionality of such retention.

APPENDIX 1: DEFINITIONS

I. Defined Terms from the 2027 Code that are used in the *International Standard for Data Protection*

ADAMS: The Anti-Doping Administration and Management System is a Web-based database management tool for data entry, storage, sharing, and reporting designed to assist stakeholders and WADA in their anti-doping operations in conjunction with data protection legislation.

Adverse Analytical Finding: A report from a WADA-accredited laboratory or other WADA-approved laboratory that, consistent with the *International Standard for Laboratories*, establishes in a Sample the presence of a *Prohibited Substance* or its *Metabolites* or *Markers* or evidence of the *Use of a Prohibited Method*.

Adverse Passport Finding: A report identified as an *Adverse Passport Finding* as described in the applicable *International Standards*.

Anti-Doping Activities: Anti-doping *Education* and information, test distribution planning, maintenance of a *Registered Testing Pool*, managing *Athlete Biological Passports*, conducting *Testing*, organizing analysis of *Samples*, gathering of intelligence and conduct of investigations, processing of *Therapeutic Use Exemption* applications, *Results Management*, monitoring and enforcing compliance with any *Consequences* imposed, and all other activities related to anti-doping to be carried out by or on behalf of an *Anti-Doping Organization*, as set out in the *Code* and/or the *International Standards*.

Anti-Doping Organization: WADA or a *Signatory* that is responsible for adopting rules for initiating, implementing or enforcing any part of the *Doping Control* process. This includes, for example, the International Olympic Committee, the International Paralympic Committee, other *Major Event Organizations* that conduct *Testing* at their *Events*, International Federations, and *National Anti-Doping Organizations*.

Athlete: Any *Person* who competes in sport at the international level (as defined by each International Federation) or the national level (as defined by each *National Anti-Doping Organization*). An *Anti-Doping Organization* has discretion to apply anti-doping rules to an *Athlete* who is neither an *International-Level Athlete* nor a *National-Level Athlete*, and thus to bring them within the definition of “*Athlete*”. In relation to *Athletes* who are neither *International-Level* nor *National-Level Athletes*, an *Anti-Doping Organization* may elect to: conduct limited *Testing* or no *Testing* at all; analyze *Samples* for less than the full menu of *Prohibited Substances*; require limited or no whereabouts information; or not require advance *Therapeutic Use Exemptions*. However, if an Article 2.1, 2.3 or 2.5 anti-doping rule violation is committed by any *Athlete* over whom an *Anti-Doping Organization* has elected to exercise its authority to test and who competes below the international or national level, then the *Consequences* set forth in the *Code* shall be applied. For purposes of Article 2.8 and Article 2.9 and for purposes of anti-doping information and *Education*, any *Person* who participates in sport under the authority of any *Signatory*, government, or other sports organization accepting the *Code* is an *Athlete*.

[Comment to Athlete: For the avoidance of doubt, an *Anti-Doping Organization* may not adopt different rules for such *Athletes* (including with respect to *Therapeutic Use Exemptions*) except with respect to the matters explicitly referenced above or as expressly allowed by an *International Standard*.

Individuals who participate in sport may fall in one of five categories: 1) International-Level Athlete, 2) National-Level Athlete, 3) individuals who are not International- or National-Level Athletes but over whom the International

Federation or National Anti-Doping Organization has chosen to exercise authority, 4) Recreational Athlete, and 5) individuals over whom no International Federation or National Anti-Doping Organization has, or has chosen to, exercise authority. All International- or National-Level Athletes are subject to the anti-doping rules of the Code, with the precise definitions of international and national level sport to be set forth in the anti-doping rules of the International Federations and National Anti-Doping Organizations.]

Athlete Biological Passport: The program and methods of gathering and collating data as described in the *International Standard for Testing* and *International Standard for Laboratories*.

Athlete Support Personnel/Athlete Support Person: Any coach, trainer, manager, agent, team staff, official, medical, paramedical personnel, parent or any other *Person* working with, treating or assisting an *Athlete* participating in or preparing for sports competition.

Atypical Finding: A report from a WADA-accredited laboratory or other WADA-approved laboratory which requires further investigation as provided by the applicable *International Standards* (including related *Technical Documents* or *Technical Letters*), or as directed by WADA, prior to the final determination about the finding (i.e., the establishing, or not, of an anti-doping rule violation).

Atypical Passport Finding: A report described as an *Atypical Passport Finding* as described in the applicable *International Standards*.

Code: The World Anti-Doping Code.

Competition: A single race, match, game or singular sport contest. For example, a basketball game or the finals of the Olympic 100-meter race in athletics. For stage races and other sport contests where prizes are awarded on a daily or other interim basis the distinction between a *Competition* and an *Event* will be as provided in the rules of the applicable International Federation.

Consequences of Anti-Doping Rule Violations (“Consequences”): An *Athlete’s* or other *Person’s* violation of an anti-doping rule may result in one or more of the following: (a) *Disqualification* means the *Athlete’s* results in a particular *Competition* or *Event* are invalidated, with all resulting *Consequences* including forfeiture of any medals, points and prizes; (b) *Ineligibility* means the *Athlete* or other *Person* is barred on account of an anti-doping rule violation for a specified period of time from participating in any *Competition* or other activity or funding as provided in Article 10.14.1; (c) *Provisional Suspension* means the *Athlete* or other *Person* is barred temporarily from participating in any *Competition* or activity prior to the final decision at a hearing conducted under Article 8; (d) *Financial Consequences* means a financial sanction imposed for an anti-doping rule violation or to recover costs associated with an anti-doping rule violation; and (e) *Public Disclosure* means the dissemination or distribution of information to the general public or *Persons* beyond those *Persons* entitled to earlier notification in accordance with Article 14. Teams in *Team Sports* may also be subject to *Consequences* as provided in Article 11.

Delegated Third Party: Any *Person* to which an *Anti-Doping Organization* delegates any aspect of *Doping Control* or anti-doping *Education* programs including, but not limited to, third parties or other *Anti-Doping Organizations* that conduct *Sample* collection or other *Doping Control* services or anti-doping *Educational* programs for the *Anti-Doping Organization*, or individuals serving as independent contractors who perform *Doping Control* services for the *Anti-Doping Organization* (e.g., non-employee *Doping Control* officers or chaperones). This definition does not include CAS.

Doping Control: All steps and processes from test distribution planning through to ultimate

disposition of any appeal and the enforcement of *Consequences*, including all steps and processes in between, including but not limited to, *Testing*, investigations, whereabouts, *Therapeutic Use Exemptions*, *Sample* collection and handling, laboratory analysis, *Results Management* and investigations or proceedings relating to violations of Article 10.14 (Status During *Ineligibility* or *Provisional Suspension*).

Education: The process of learning to instill values and develop behaviors that foster and protect the spirit of sport, and to prevent intentional and unintentional doping.

Ineligibility: See *Consequences of Anti-Doping Rule Violations* above.

International Standard: A standard adopted by WADA in support of the *Code*. Compliance with an *International Standard* (as opposed to another alternative standard, practice or procedure) shall be sufficient to conclude that the procedures addressed by the *International Standard* were performed properly. *International Standards* shall include any *Technical Documents* and *Technical Letters* issued pursuant to the *International Standard*.

Person: A natural *Person* or an organization or other entity.

Prohibited Method: Any method so described on the *Prohibited List*.

Prohibited Substance: Any substance, or class of substances, so described on the *Prohibited List*.

Public Disclosure/Publicly Disclose: See *Consequences of Anti-Doping Rule Violations* above.

Registered Testing Pool: The pool of highest-priority *Athletes* established separately at the international level by International Federations and at the national level by *National Anti-Doping Organizations*, who are subject to at least a minimum level of *Out-of-Competition Testing* as part of that International Federation's or *National Anti-Doping Organization's* test distribution plan and therefore are required to provide whereabouts information as provided in Article 5.5 and the *International Standard for Testing*.

Results Management: The process encompassing the timeframe between notification as per Article 5 of the *International Standard for Results Management*, or in certain cases (e.g., *Atypical Finding*, *Athlete Biological Passport*, whereabouts failure), such pre-notification steps expressly provided for in Article 5 of the *International Standard for Results Management*, through the charge until the final resolution of the matter, including the end of the hearing process at first instance or on appeal (if an appeal was lodged).

Sample or Specimen: Any biological material collected for the purposes of *Doping Control*.

[Comment to Sample or Specimen: It has sometimes been claimed that the collection of blood or urine Samples violates the tenets of certain religious or cultural groups. It has been determined that there is no basis for any such claim.]

Signatories: Those entities accepting the *Code* and agreeing to implement the *Code*, as provided in Article 23.

Target Testing: Selection of specific *Athletes* for *Testing* based on criteria set forth in the *International Standard for Testing*.

Technical Document: A document adopted and published by WADA from time to time containing mandatory technical requirements on specific anti-doping topics as set forth in an

International Standard.

Testing: The parts of the *Doping Control* process involving test distribution planning, *Sample* collection, *Sample* handling, and *Sample* transport to the laboratory.

Therapeutic Use Exemption: A *Therapeutic Use Exemption* allows an *Athlete* with a medical condition to use a *Prohibited Substance* or *Prohibited Method*, but only if the conditions set out in Article 4.4 and the *International Standard for Therapeutic Use Exemptions* are met.

WADA: The World Anti-Doping Agency.

II. Defined Terms Specific to the *International Standard for Data Protection*

Personal Information: Information, whether in electronic or physical form, including without limitation Sensitive Personal Information, relating to an identified or identifiable individual when Processed in the context of *Anti-Doping Activities*.

[Comment to Personal Information: It is understood that Personal Information includes, but is not limited to, information relating to an Athlete's name, date of birth, contact details and sporting affiliations, whereabouts, designated TUEs (if any), anti-doping test results, and Results Management. Personal Information also includes personal details and contact information relating to other individuals, such as medical professionals and others working with, treating or assisting an Athlete in the context of Anti-Doping Activities. Such information remains Personal Information and is regulated by this International Standard for the entire duration of its Processing, irrespective of whether the relevant individual remains involved in organized sport.]

Processing (and its cognates, **Process** and **Processed**): Collecting, accessing, retaining, storing, disclosing, transferring, transmitting, amending, deleting, using or other operation performed on Personal Information.

Personal Information Breach: A breach of security resulting in the accidental or unlawful loss, theft, damage or unauthorized and/or unlawful disclosure of or access to Personal Information, whether in electronic or physical form.

Sensitive Personal Information: Personal Information relating to an individual's racial or ethnic origin, commission of offences, health (including information derived from analyzing an *Athlete's Samples* or *Specimens*), sexual preferences/activity, biometric data Processed for the purpose of uniquely identifying an individual, genetic information or deemed to be sensitive Personal Information under applicable law.

[Comment to Sensitive Personal Information: There increasingly is consensus, reflected in international data privacy frameworks, that certain categories of Personal Information warrant greater protection on account of the heightened privacy risks they engender, and so are legally designated as "sensitive" or "special" Personal Information. Additionally, certain countries may deem additional categories of Personal Information, such as national identifiers or financial information, as sensitive under local laws, reflecting national custom and practice, and "ordinary" Personal Information may constitute Sensitive Personal Information where it is possible to reliably reveal sensitive data categories to the relevant individual based on that Personal Information.]

Third-Party Agent: Any Person that Processes Personal Information on behalf of, as delegated by, or as otherwise engaged by an *Anti-Doping Organization* in the context of the *Anti-Doping Organization's Anti-Doping Activities* including, without limitation, a *Delegated Third Party* and any subcontractors.

III. Defined Terms from the *International Standard for Testing* that are used in the *International Standard for Data Protection*

Doping Control Coordinator: An *Anti-Doping Organization* or a *Delegated Third Party* that coordinates any aspect of *Doping Control* on behalf of an *Anti-Doping Organization*. The

Anti-Doping Organization always remains ultimately responsible under the *Code* for compliance with the requirements of the *International Standard for Testing, Therapeutic Use Exemptions, Data Protection, and Results Management*.

Doping Control Officer: An official who has been trained and authorized by the *Sample Collection Authority* to carry out the responsibilities given to *Doping Control Officers* in the *International Standard for Testing*.

No Advance Notice Testing: *Sample* collection that takes place with no advance warning to the *Athlete* and where the *Athlete* is continuously chaperoned from the moment of notification through *Sample* provision.

Test Distribution Plan: A document written by an *Anti-Doping Organization* that plans *Testing* on *Athletes*, in accordance with the requirements of Article 4.7.
